

Lavdim Ismaili

Software Developer

I specialize in **Web** and App **Development**

React

.NET

iOS

Android

ABOUT ME

I am a software developer with expertise in React.ts, .NET, iOS, and Android. I develop optimized and secure applications using languages such as TypeScript, C#, Swift, and Kotlin.

I studied Software Development: Mobile Platforms & Digital Systems at Jönköping University and have gained experience at companies like Consid and Verendus.

I have launched several websites and an iOS app on the App Store called WiseWords.
